DRAWER SIDE PANEL - 2 PCS

DRAWER BACKING PANEL - 1 PC

**DRAWER FITTINGS IDENTIFICATION**

Cam-pins

Cam-locks

SCREW (M5\*8MM)  
Euro Screw for receiver runners

SCREW (M3.5\*12MM)  
for drawer runners

Receiver Runners

Drawer Runners

Tap cam-pins in place before tightening with screwdriver

Ensure wheels are facing the back of the drawer.  
Fix drawer runners with screws to underside of drawer (do not screw from the side of the drawer)

Lower drawer into receiver runner at a downwards angle then glide the rest of the drawer in. To engage the soft close feature, gently push the drawer fully inward.

# SLIDING DOORS INSTALLATION INSTRUCTIONS

Once you have completed the wardrobe build it's an easy six steps to finish with the installation your doors.

NOTE: Door hardware is supplied in the track pack.

- 1** Position the top door track flush with the front of the wardrobe and secure using the screws provided.

- 2** Position the bottom track ensuring it is placed 20mm in from the front of the wardrobe before securing.

- 3** Slip top of door into rear channel then set bottom onto the rear floor track. Repeat for the second door using front channel and track.

- 4** Lift the door and position its bottom wheels into their corresponding guide on the wardrobe floor.

- 5** Adjust the side height of each door with a philips screwdriver (clockwise to increase height)

- 6** To control movement, peel adhesive & place the brake into each track where you want the wheels on top of the doors to remain stationary.
